DIPLOMA SUPPLEMENT

Diploma No:

Diploma Date:

Near East Boulevard, Nicosia–North Cyprus

+90 392 680 2000

This Diploma Supplement follows the model developed by the European Commission, Council of Europe and UNESCO/CEPES. The Purpose of the supplement is to provide sufficient independent data to improve the international “transparency” and fair academic and professional recognition of qualifications (diplomas, degrees, certificates, etc.). It is designed to provide a description of the nature, level, context, content and the status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgments, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.

1. INFORMATION IDENTIFYING THE HOLDER OF THE QUALIFICATION

1.1 Family Name(s):

1.2. Given Name (s):

1.2 Place and date of birth:

1.4 Student identification number:

2. INFORMATION IDENTIFYING THE QUALIFICATION

2.1. Name of qualification: Tıp Doktoru (Dr) (Doctor of Medicine (M.D.))

2.2 Main field(s) of study for the qualification: Medicine (Tıp)

2.3 Name and status of awarding institution: Yakın Doğu Üniversitesi, (Özel Üniversite) Near East University, Private University

2.4. Name and status of institution administering studies: Same as 2.3

2.5. Language(s) of instruction/examination: Turkish - English

3. INFORMATION ON THE LEVEL OF THE QUALIFICATION

3.1 Level of qualification: Second Cycle (Master’s Degree)

3.2 Official length of programme: 6 years (excluding one year of English preparatory class for English programme) - 360 ECTS.

3.3 Access requirement(s): High School Diploma

Admission of Turkish nationals is by Placement through a nation-wide Student Selection Examination (ÖSS) administered by Assessment, Selection and Placement Centre-ÖSYM).

Admissions of Turkish Cypriots is based on the Near East University Entrance and Placement exam Admission of international students is based on their high school credentials. Proof of English Language proficiency is also required.

4. INFORMATION ON THE CONTENTS AND RESULTS GAINED

4.1 **Mode of study:** Full time

4.2 **Programme requirements:** A student is required to have minimum pass grade from each course and obtain minimum 2.00/4.00 cumulative GPA. The students who have successfully completed the programme should be able to be science-based, skilled, competent and compassionate **clinicians** prepared to meet the challenges of practicing medicine in the 21st century, and **researchers** who are prepared to conduct cutting-edge biomedical research focused on bettering the human condition and advancing the fundamental understanding of medical science.

0-34	FF	0,00 (Failed)

4.5 Examination Regulation, Assessment and Grading
In the first three years (Phases 1, 2 and 3) of the medical faculty, students are evaluated by MCQ (multiple choice questions) and laboratory exams at the end of each subject committee. At the end of each academic year, there is a final examination covering all subject committees of that year. The students must be successful at the cumulative year grade, which is calculated by taking into account the committee subject exam grades and the final exam grade. It is also obligatory to pass the final examination. In Phase 4 and Phase 5, there is an examination at the end of each clinical clerkship, performed as theoretical (written and/or oral) and practical. In the examinations, the student's performance during the clerkship is taken into consideration as well. In Phase 6, the internship year, the student's performance is evaluated at the end of each rotation according to his/her general clinical sufficiency, practical skills, theoretical knowledge and enthusiasm in the wards and out-patient clinics.

4.6 Overall Classification of the Qualification: NA

5- INFORMATION ON THE FUNCTION OF THE QUALIFICATION

- 5.1 Access to further study: May apply to third cycle programmes
- 5.2 Professional status conferred:This degree enables the holder to exercise the profession.

6- ADDITIONAL INFORMATION

6.1 Additional information:

The student succeeded in English Language Proficiency Examination.

The six years curriculum of medical education is composed of three preclinical years (phases) of education&training followed by two years of clinical clerkships and one year of internship. During preclinical period the curriculum consists of 4-9 subject committees (educational blocks) with relevant subject courses. The following information depicts individual subject courses and their duration in hours.

Year 1: Total: 470 Hours
(Biostatistics:16, Organic Chemistry:32, Medical Biochemistry:103, Medical Biology:99, Biophysics:21, Physiology:9, Histology & Embryology:14, Medical Education and Informatics:18, Microbiology:32, Public Health:9, Behavioral Sciences:45,Medical History:8, Elective Course: 64)

Year 2: Total: 871 Hours
(Anatomy:281, Biostatistics:14, Medical Biochemistry:64, Biophysics:37, Medical Pharmacology:9, Physiology:190, Histology& Embryology:172, Good Medical Practice:52, Medical Microbiology:35, Medical Pathology:17)

Year 3: Total: 810 Hours
(Pediatrics:60, Medical Pharmacology:94,Medical Microbiology:99, Medical Pathology:139, Internal Medicine:93, Anesthesiology and Reanimation:4, Cardiology:20, Otorhinolaryngology:7, Radiology:19, General Surgery:6, Obstetrics And Gynecology:17, Urology:9, Psychiatry:11, Physical Medicine And Rehabilitation:8, Ophthalmology:7, Neurology:11, Neurosurgery:7, Orthopedics&Traumatology:4, Child and Adult Psychiatry:3, Public Health:110, Forensic Medicine:6, Medical Ethics and Deontology:7, Biostatistics:14, Medical Biochemistry:8, Biophysics:4Clinical and Professional Development:19, Infectious Diseases & Clinical Microbiology:2, Nuclear Medicine: 9, Chest Diseases:7, Medical Biology:3, Sports Medicine:1, Medical Genetics:2)

Year 4: Total:1039 Hours
(Internal Diseases:255, Pediatrics:321, Obstetrics&Gynecology:230,General Surgery:187, Medical Pharmacology:27, Emergency Medicine:12, Anesthesiology:2, Radiation Oncology:2, Medical Oncology:2, Radiology:1)

Year 5: Total: 1094 Hours
(Skin and Venereal Diseases:69,Emergency Medicine:152, Forensic Medicine:24, Neurology:80, Nuclear Medicine:25, Ophthalmology:79, Orthopedics&Traumatology:85, Otorhinolaryngology:64, , Physical Medicine And Rehabilitation:84, Psychiatry:58, Radiation Oncology:60, Radiology: 35, Urology:52, Child and Adult Psychiatry:18, History Of Medicine And Ethics:20, Evidence-Based Medicine:80, Infectious Diseases and Clinical Microbiology:57 Elective: 52)

Year 6: Total: 2040 Hours
(Public Health: 352, Pediatrics:352, Internal Medicine:352, General Surgery:176, Emergency Medicine:152, Obstetrics&Gynecology:352 Elective I: 152, Elective II: 152) (1 month=22 working days=8 hours each day)

8. INFORMATION ON THE NATIONAL HIGHER EDUCATION SYSTEM

The basic structure of the North Cyprus Education System consists of four main stages as pre-school education, primary education, secondary education and higher education.

Pre-school education consists of non-compulsory programs whereas primary education is a compulsory 8 year program for all children beginning from the age of 6. Thesecondaryeducation system includes “General High Schools” and “Vocational and Technical High Schools”.

The Higher Education System in North Cyprus is regulated by the Higher Education Planning, Evaluation, Accreditation and Coordination Council (Yükseköğretim Planlama, Denetleme, Akreditasyon ve Koordinasyon Kurulu – YÖDAK). Established in 1988, the Council regulates the activities of higher education institutions with respect to research, governing, planning and organization. The higher education institutions are established within the framework of the Higher Education Law. All programs of higher education should be accredited by YÖDAK.

Higher education in North Cyprus comprises all post-secondary higher education programmes, consisting of short, first, second, and third cycle degrees in terms of terminology of the Bologna Process. The structure of North Cyprus higher education degrees is based on a two-tier system, except for dentistry, pharmacy, medicine and veterinary medicine programmes which have a one-tier system. The duration of these one-tier programmes is five years except for medicine which lasts six years. The qualifications in these one-tier programmes are equivalent to the first cycle (bachelor degree) plus secondary cycle (master degree) degree. Undergraduate level of study consists of short cycle (associate degree) - (önlisans derecesi) and first cycle (bachelor degree) - (lisans derecesi) degrees which are awarded after the successful completion of full-time two-year and four-year study programmes, respectively.

Graduate level of study consists of second cycle (master degree) – (yüksek lisans derecesi) and third cycle (doctorate) – (doktora derecesi) degree programmes. Second cycle is divided into two sub-types named as master without thesis and master with thesis. Master programmes without thesis consists of courses and semester project. The master programmes with a thesis consist of courses, a seminar, and a thesis. Third cycle (doctorate) degree programmes consist of completion of courses, passing a qualifying examination and a doctoral thesis. Specializations in dentistry, accepted as equivalent to third cycle programmes are carried out within the faculties of dentistry, and university hospitals and training hospitals operated by the Ministry of Health.

Universities consist of graduate schools (institutes) offering second cycle (master degree) and third cycle (doctorate) degree programmes, faculties offering first cycle (bachelor degree) programmes, four-year higher schools offering first cycle (bachelor degree) degree programmes with a vocational emphasis and two-year vocational schools offering short cycle (associate degree) degree programmes of strictly vocational nature.

Second cycle degree holders may apply to third cycle programmes if their performance at the first cycle degree level is exceptionally high and their national central Graduate Education Entrance Examination (ALES) score is also high and their application is approved. The doctoral degree is conferred subject to at least one publication in a cited and refereed journal.
