

COURSE EVALUATION FORM-PHASE II

46 responses

[Publish analytics](#)

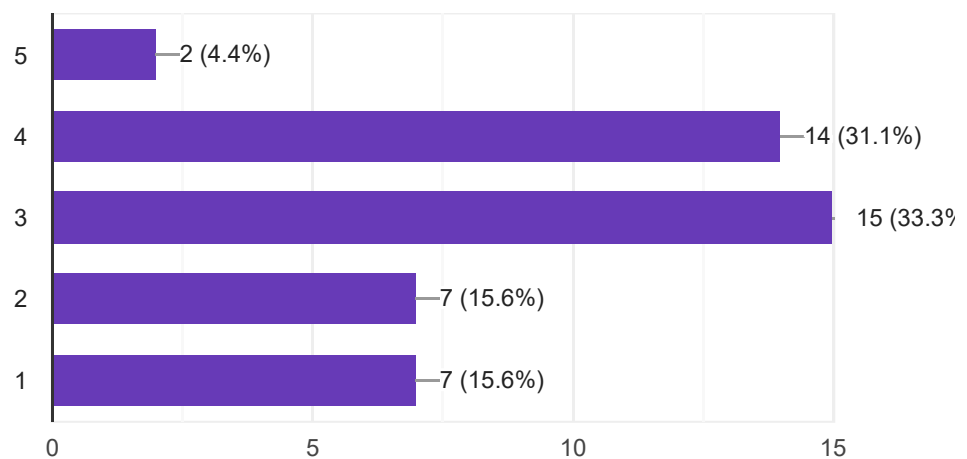

Course objectives were achieved.

46 responses

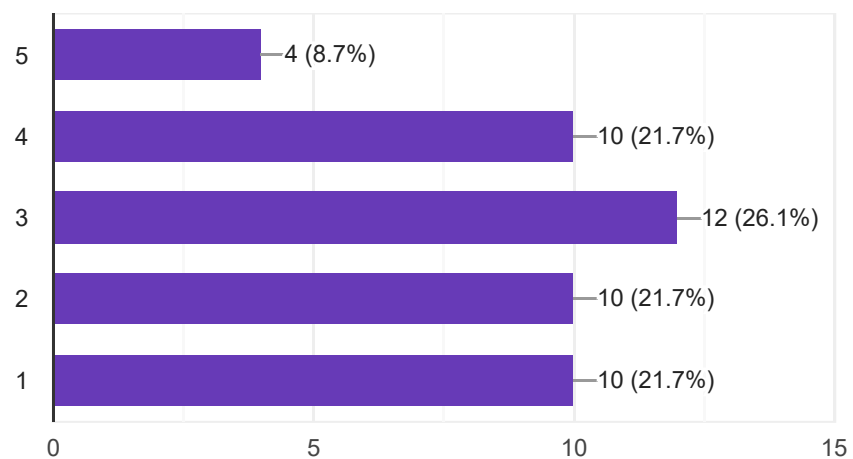

Class infrastructure was suitable for the course.

45 responses

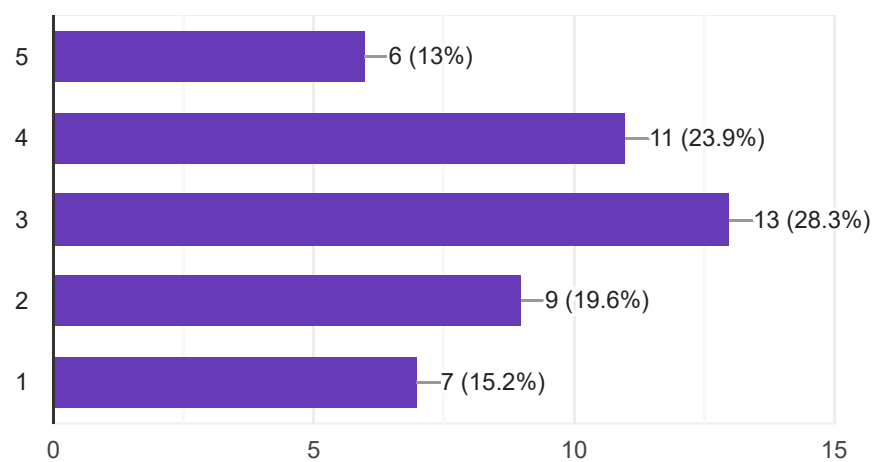

The teaching methods used were helpful to learn better.

46 responses

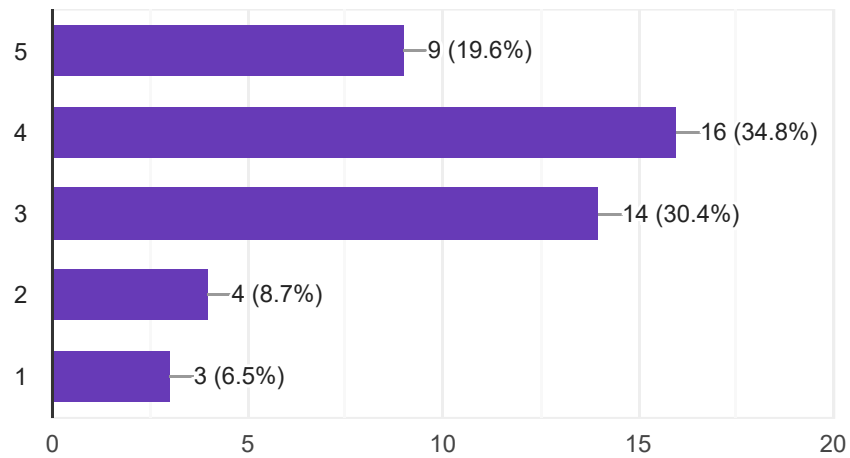

Online education was helpful.

46 responses

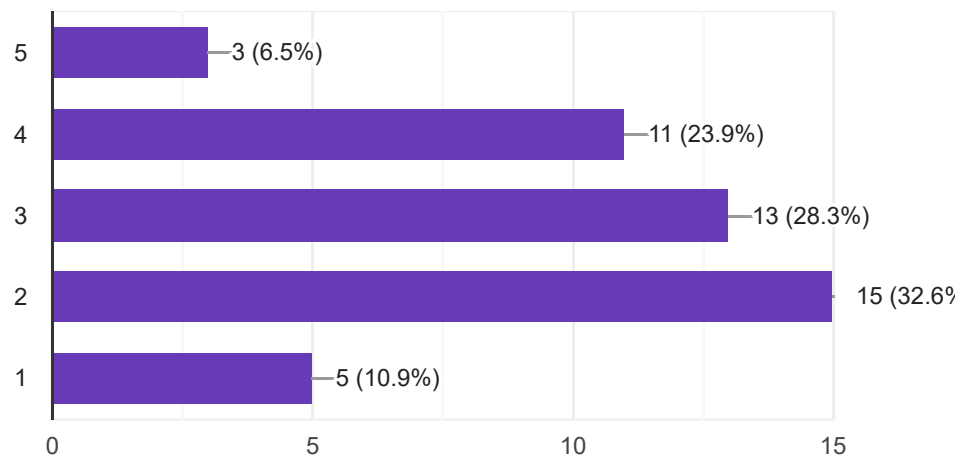

During the course, tutors' attitude and behaviour have positively affected the learning environment.

46 responses

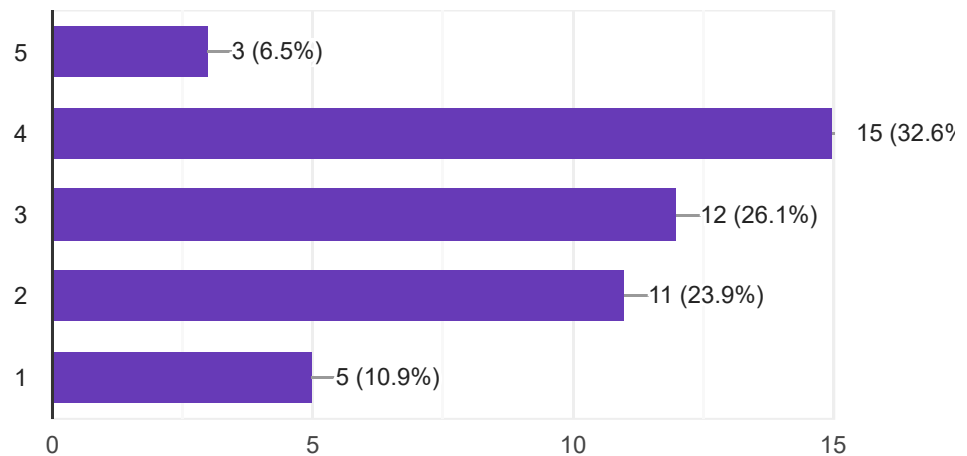

The training equipment used in the class was sufficient.

46 responses

The course program was good in general.

46 responses

Are there any subjects that need to be added to the course programme (schedule) to make the course more productive? Please explain.

12 responses

No

You need more time to prepare the exam and many time lab 🖋️

no

i dont think anything extra is needed as we were given study purposed video links and extra sources from books

Maybe some lecture hours where we can solve questions with our lecturer to make thing more clear and efficient for our learning.

No need more subjects in schedule

Are there any issues that need to be removed from the course programme (schedule) to make the course more productive? Please explain.

No

No

Download lectures on time

Yes the delay please upload lectures on time so we can study my all students can study a week prior

There were some courses and lecture recorded videos that weren't even in the uzem site e.g. physiology, etc. That needs to be resolved. Sometimes the lecture videos aren't clear enough for the ears, e.g. they crack.

Some lectures being uploaded on UZEM late like biophysics

more time for exam

Time is not sufficient to solve the exam

What are your thoughts and suggestions in general about the course program?

You need more time to prepare the exam and many time lab 🖋️

Yes. I would love if the lecturers made their English understandable not mixing it with Turkish and English. And please audibility is required. Thanks

My suggestion is that our Doctors should send their learn material (like videos and lecture notes on time) they send almost everything too late and expect us to be good in the exams.

The lateness is a serious problem that need to be dealt with. Physiology didn't share the lecture records. Biophysic lectures were missing

Can be don't right if it was taken care off

The course program is good, but could be better. I strongly suggest that both online students and face to face students should get the same amount of education equally.

Improving on uploading the lectures (notes & lecture recordings) on time and
